

Sjöbergs Nordic 1450

Birchwood top designed for long life. Sjöbergs Nordic 1450 comes with two vices that can be located in four different places. Our holdfasts can be used on both the top and the frame.

The double dog hole rows for both front and back vices and multiple accessories make Sjöbergs Nordic 1450 a workplace with many possibilities and this workbench can be used both right and left handed.

Together with Storage Module 0042, the tools are kept in place and the bench becomes complete.
